

# Angel House

*Addressing the educational, family, physical, & mental health needs of the immigrant community through  
outreach services, with educational training & volunteer opportunities*

30 December 2003

Dr. James Payne  
15441 Fitzgerald  
Livonia, MI 48154

Dear Dr. Payne:

On behalf of my fellow co-laborers, I thank you again for your very generous gift of 12 computers to further the strategic outreach and educational programs of Angel House to the immigrant Arab community in Southeast Michigan and beyond.

With your help, Angel House serves as a multicultural organization of caring Americans whose purpose is to assist recent immigrants with skills to improve their quality of life and employment skills and prospects. Through our outreach, we are addressing the social, family, spiritual, and physical needs of the immigrant community through services in education, health, and counseling. Angel House also provides opportunities in volunteerism, education, training, and outreach for Americans who wish to experience the rich culture of our clients and share the rich heritage of this country.

**Your support is a blessing and an encouragement.** I hope you will take satisfaction in knowing that your vital gift of a complete Computer Lab enables Angel House to assist this at-risk community the ability to learn English and communication skills more efficiently through use of word processing and the Internet, most for the first time in their lives.

Sincerely Yours,

Diane Denaro Frank  
Executive Director
