James Payne, President
JDS Computers
15441 Fitzgerald
Livonia, MI 48154

Dear Dr Payne:

On behalf of the students and staff of the Communication and Media Arts High School, I thank you for the donation of 20 computers and printers. They have been placed in classrooms, making them available for student use during class and after school. Since the majority of our students do not have computers at home, your donation makes it possible for these students not only to become computer literate but also for them to utilize tutorial computer programs. Students are taking advantage of the availability of these computers to do homework and research.

Through your generosity and that of JDS Computers, the opportunities for these disadvantaged but appreciative students have increased. After we set up the last computers, we invite you to come and see what your good works have done.

Sincerely,

K. Gray
Principal
