

October 21, 2003

Gentlemen:

You have transformed our computer lab with your donation of 25 computer systems. The computers will be used by our students in grades K - 8 in the following ways:

- writing exercises (poetry, paragraphs, & lists with emphasis on grammar & punctuation)
- spreadsheet assignments
- presentation projects
- logic and problem solving software
- LOGO commands & designs
- programs for robots built with LEGO Mindstorms

In addition, once the Internet connection is established, our students will be able to do online research in the content areas. Teachers will be able to use the computer lab to plan online lessons. It may be possible to offer evening classes for school parents in need of computer skills.

Rosanne, the principal, and I were so energized by your donation that we spent the weekend stripping & waxing the floor in the computer lab. We are looking forward to sharing this exciting, new facility with our parents when they visit the school. Our teachers and students were overwhelmed on Monday when they saw the new machines. They are grateful for your work.

Your commitment to education is exemplary. We appreciate the time & energy you spent on this project. Thank you for selecting our school.
