Dear Dr. Payne:

The parents and staff at St. Olaf want to thank you for donating two computers to our center.

Prior to receiving your donation, there was one computer per classroom and the children were taking turns using it for short periods of time. Additional computers provide more time for the children to explore, which enhances their ability to become more aware of how technology can become an intricate part of their lives.

Thank you once again for your donation.

Sincerely,

**Bobbie Small
