Dear Dr. Payne,

We are appreciative of your donation for the six computers ,which will further our goals in supporting Women and children who are effected/affected with the disease HIV/AIDS. Jewell's Place International is dedicated to making a difference within the community, not only with housing but with education as well. Therefore, the computers will certainly benefit these individuals, families who are economically disadvantaged or perhaps overlooked because of their situations. Again, we are appreciative of your gratitude and donation for the six computers. May we continue to work together to educate and change the quality of lives for this particular population of human beings.

Sincerely,

Dianne B. Alexander , Director
Jewell's Place International

WE ARE MAKING A DIFFERENCE...
