Dear Dr. Payne,

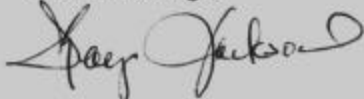

I wanted to take the time to let you know how much I truly appreciate your kindness. I recently received the computer that you reworked and so generously sent and I am so excited. You truly are a special and talented person to be able to help so many people in a positive way.

I have worked in the same school system with Christopher's mother for many years. She has been a dear friend and so thoughtful for realizing my situation and mentioning my name to you both. I am an unmarried woman on my own, working two jobs, trying to continuously better myself. I feel very blessed to be given the opportunity to continue to improve my skills in my own home, especially on the weekends. My goal is to better myself and eventually be able to give up my evening employment.

I have to add that I love your little town and its atmosphere. My daughter and I try to get there at least twice a year or more to enjoy the beautiful shops.

I wish you so much happiness in your field of work and in helping others fulfill a dream of self-improvement. Thank you so very much.

God's blessings,
