RE: Donation of 20 Computers

Dear Dr Payne:

We sincerely thank JDS Computers for the donation of twenty Pentium III computers to our organization. Two are now being used to enhance both the business operations of Neighborhood Centers Incorporated so as to better serve our resource development and management functions on behalf of such projects as All Saints Neighborhood Center and Park.

The other 18 are being placed with qualified low-income applicants from among our youth program families after an orientation and training class. These computers will be used to help parents and children to learn together the skills necessary for success in the information age.

To show our appreciation in a more concrete way, we have ordered a plaque for display in your office that will recognize JDS Computers with the NCI "Neighborhood Hero" award.

Neighborhood Centers Incorporated is a Michigan nonprofit with 501c3 recognition from the Internal Revenue Service. Our tax identification number is 38-3417141. You and JDS Computers received no benefit in exchange for this gift.

Sincerely,

Dennis Nordmoe, Ph.D.
Executive Director
