December 31, 2002

Dear Dr. Payne,

Thank you so much for taking the time and energy to put together our first **real** computer lab. I know everyone including the teachers will enjoy using the computers. We provide computer classes for all the elementary students and about half of middle school and high school students. The new PC lab will get a lot of use. Now we will even be able to provide computer classes for children and adults in the community.

What you did for us will be a tremendous blessing to a whole lot of people. I pray that the Lord will continue to bless you and provide what ever you need to help others like us.

Sincerely,

Daryl & Paula Ounanian
Founders

*Thank you
for the awesome blessing!*
